1. Introduction

1.1. Document Overview

This Test Report provides a summary of a test execution. This document has been generated automatically from the test management platform.

1.2. Test Execution ECTP-36 Details

Description	This Test Execution covers the first round of manual testing for core functionalities of the e-commerce application, including login, product search, add to cart, checkout, and logout modules. All test cases from the Test Plan have been executed against the live environment to verify expected behavior. Results are marked based on observed application response, with any failed scenarios documented for further investigation and bug reporting.
